WHAT ARE WE LEARNING?

Happy Friday

This week we started the discussion of Summer. What are some things that happen in the summer, the weather, things we can do in the summer. We worked on our Sabis worksheets. We worked on math numbers. Tracing words of summer and summer patterns, we explored the life of a butterfly and had released them. We explored being outside, and created some art, and ended it on some positive affirmations!

This week we focused on letter Gg, shape of a rectangle, color red, and number 3. We read some fun summer time books as well!
