

ATTENTION ISM FAMILIES

One of the unique features of The International School of Minnesota is the diverse community of ethnic and cultural backgrounds of our students, families and staff. In the past we have been extremely proud of the fact that our staff and student body represent close to 40 different nationalities. This year we are looking to update our records and develop more accurate information about our diverse ISM community. Thank you for taking the time to share this information with us.

Other cultural information about our family:
(e.g. Family lived in Germany for 3 years or Grandparents migrated to America from China.)

I would be interested in helping out with projects organized by the International Committee that are meant to give our students a greater appreciation of ethnic and cultural diversity.
